Milpower Source Operates Indian JV to Support Offsets

Belmont, NH – Milpower Source, Inc., a New Hampshire based company, is pleased to share with the NHADEC membership a local solution to satisfy offset requirements for sales in India. A joint venture between Milpower and Multisphere Power Solutions Pvt Ltd., offers a path for NHADEC members to manage Indian offset requirements through a local relationship.

The joint venture between Milpower and Multisphere Power Solutions can support direct offset requirements for U.S. manufacturers selling to the Indian MOD by sourcing locally designed and manufactured power conversion components utilized in major systems such as aircraft, weapons, radar systems, and ground vehicles. NHADEC members are invited to learn more by speaking directly with Milpower.

Located near New Delhi, Multisphere Power Solutions Pvt Ltd, was established in 1998 and operates a 12,000 ft² ISO9001 and AS9100 certified engineering and manufacturing facility capable of designing and producing AC-DC, DC-AC, and DC-DC rugged power supply products. Additionally, Multisphere Power Solutions is knowledgeable in Generator Control Units (GCU), Uninterruptible Power Supplies (UPS), power distribution solutions, and various form factors; including VPX VITA 62, VME, and custom enclosures.

Mr. Tomer Eshed, General Manager at Milpower Source commented on Multisphere Power Solutions, “This local capability fills a key gap in the Indian defense and aerospace market, offering high quality custom power conversion solutions to our growing number of customers.” Mr. Eshed went on to say, “U.S. and international defense companies seeking to penetrate the Indian market have a reliable, experienced, and capable partner in Multisphere Power Solutions for direct and indirect offset requirements.”
